COMMUNICATION REGARDING SEQUENCE LISTING

TECH CENTER 1600/2900

New pages 1 through 21 are submitted herewith
containing Sequences 1 through 24, formatted in accordance with
the conventions set forth in 37 C.F.R. § 1.823.

The replacement Sequence Listing differs in several
respects from the original Sequence Listing. New SEQ ID NO: 24
(PHESRTNSDIVE), which represents the calmodulin kinase IV site
shown in original Figure 1B, has been added. This sequence,
which was present in Figure 1B as originally filed with the
application, was omitted from the earlier Sequence Listing due to
an oversight.

SEQ ID NOS: 7 and 8 also have been corrected to conform
with original Figures 5A and 5B. In addition, SEQ ID NO: 17 has

Inventors: Lipton and Okamoto
Serial No.: 09/876,187
Filed: June 5, 2001
Page 2

been corrected at residue 17 to conform with the proline shown in this sequence in original Figure 1B.

No new matter is introduced by the replacement Sequence Listing as it merely represents the sequences originally set forth in the application. Accordingly, entry of the pages containing the replacement Sequence Listing is respectfully requested.

No fee is deemed necessary in connection with the filing of this Communication. However, if any fee is required, authorization is given to charge the amount of this fee to Deposit Account No. 50-2624.

Respectfully submitted,

May 9, 2003
